

ABHIJIT SINGH

Full Stack Developer — SAP BTP Developer — Python Developer

Vadodara, Gujarat, India

abhijeetrathore104@gmail.com — LinkedIn — GitHub — LeetCode

Professional Summary

Full Stack Developer with hands-on experience in SAP BTP, ABAP Cloud, Python, Django, React, and SAP S/4HANA integrations. Skilled in designing enterprise applications, SAP RAP services, CDS Views, OData APIs, AI-powered automation, and cloud-native solutions using SAP HANA Cloud and Cloud Foundry. Passionate about building scalable software that solves real business problems.

Technical Skills

Programming: Python, ABAP, JavaScript, TypeScript, SQL, C

SAP: SAP BTP, ABAP Cloud, RAP, CDS Views, OData V2/V4, SAP HANA Cloud, SAP Fiori, SAP Business Application Studio, Cloud Foundry, SAP CAP

Frontend: React, SAPUI5, HTML5, CSS3, Tailwind CSS

Backend: Django, Flask, FastAPI, REST APIs

Databases: SAP HANA, MySQL, PostgreSQL

Cloud & Tools: AWS, Oracle OCI, Git, GitHub, Postman

AI: Generative AI, NLP, AI Agents, Prompt Engineering, Workflow Automation

Professional Experience

SAP Full Stack Developer Intern — VegaH

Nov 2025 – Present

- Developed enterprise applications on SAP BTP using ABAP Cloud and RAP for SAP S/4HANA integration.
- Designed CDS Views, OData V2/V4 services, and SAP Fiori applications following clean architecture practices.
- Implemented business logic using RAP behavior definitions and service bindings.
- Integrated AI-powered automation workflows with enterprise SAP applications.
- Worked with SAP HANA Cloud, Cloud Foundry, SAP Business Application Studio, Git, and Agile development practices.

Python Django Intern — Infosys Springboard

Sep 2025 – Nov 2025

- Developed full-stack web applications using Python, Django, HTML, CSS, JavaScript, and MySQL.
- Built REST APIs and scalable backend services for data-driven applications.
- Designed responsive user interfaces and collaborated in Agile project delivery.

Projects

Recall – AI-Powered SAP Outreach Platform

Tech Stack: SAP BTP, ABAP Cloud, CAP, SAP HANA Cloud, Python, OData

- Built an AI-powered customer outreach platform integrating SAP S/4HANA with intelligent automation workflows.
- Developed backend services and SAP OData APIs for enterprise communication.
- Automated customer notifications through AI-driven voice and email workflows.

Mindispo – Resource Optimization Platform

Tech Stack: Django, React, MySQL, REST APIs

- Developed a full-stack platform for inventory management, resource allocation, and analytics dashboards.
- Implemented scalable backend services for operational monitoring.

RedHope – Healthcare Logistics Platform

Tech Stack: Django, React, REST APIs

- Designed and developed a healthcare logistics platform for blood and organ request management.
- Implemented real-time tracking and stakeholder coordination workflows.

SAP Fiori Sales Order Management Application

Tech Stack: SAPUI5, ABAP, OData, SAP BTP

- Developed SAPUI5 applications with ABAP backend services and OData integration.
- Built responsive interfaces following SAP Fiori design guidelines.

Certifications

- SAP Certified Associate – Back-End Developer (ABAP Cloud)
- SAP Certified Associate – SAP S/4HANA Cloud Public Edition
- Oracle OCI 2025 Data Science Professional
- AWS Certified Cloud Practitioner

Education

Bachelor of Technology in Computer Science (SAP Specialization)

Parul University, Vadodara, Gujarat

Expected 2027
